

Lovely Professional University, Punjab

Course Code	Course Title	Lectures	Tutorials	Practicals	Credits	
CSE326	INTERNET PROGRAMMING LABORATORY	0	0	3	2	
Course Weightage	ATT: 5 CAP: 45 ETP: 50	Exam Category: X6: Mid Term Exam: Not Applicable – End Term Exam: Practical				
Course Focus	EMPLOYABILITY,SKILL DEVELOPMENT,ENTREPRENEURSHIP					

Course Outcomes :Through this course students should be able to

CO1 :: identify HTML document structure, work with basic elements, and utilize different types of tags to create well-structured web pages.

CO2 :: apply text, create links, embed multimedia, and work with images to enhance the visual and interactive aspects of web pages.

CO3 :: cultivate CSS selectors, properties, and the box model on different HTML elements to effectively construct a web page

CO4 :: construct and style tables, implement form controls, and apply CSS to enhance the layout and functionality of web forms

CO5 :: develop interactive web applications by incorporating JavaScript code for variable manipulation, control statements, looping, popup boxes, object manipulation, and form validation.

CO6 :: manipulate and interact with web page elements dynamically using JavaScript DOM methods and properties.

	TextBooks (T)		
Sr No	Title	Author	Publisher Name
T-1	MASTERING HTML, CSS & JAVA SCRIPT WEB PUBLISHING	LAURA LE MAY, RAFE COLBURN, JENNIFER KYRNIN	BPB PUBLICATIONS

Detailed Plan For Lectures

An instruction plan is only a tentative plan. The teacher may make some changes in his/her teaching plan. The students are advised to use syllabus for preparation of all examinations. The students are expected to keep themselves updated on the contemporary issues related to the course. Upto 20% of the questions in any examination/Academic tasks can be asked from such issues even if not explicitly mentioned in the instruction plan.

Week Number	Lecture Number	Broad Topic(Sub Topic)	Chapters/Sections of Text/reference books	Other Readings, Relevant Websites, Audio Visual Aids, software and Virtual Labs	Lecture Description	Learning Outcomes	Pedagogical Tool Demonstration/ Case Study / Images / animation / ppt etc. Planned	Live Examples
Week 1	Lecture 1	Exposure To HTML(HTML document structure)	T-1	RW-18 SW-1 VL-1	Exposure To HTML: HTML document structure	To understand the implementation of basic elements used for programming simple HTML document.	Live demonstration using VS code and browser	
Week 2	Lecture 2	Exposure To HTML (Working with HTML basic elements like title, head, body)		RW-3 RW-20 SW-1	Exposure To HTML;Working with HTML basic elements like title, head, body	To understand the implementation of basic elements used for programming simple HTML document	Live demonstration using VS code and browser	
Week 3	Lecture 3	Exposure To HTML (Working with Root and Metadata)	T-1 R-1	RW-2 RW-18 RW-19 SW-1	Working with Root and Metadata	To understand the implementation of basic elements used for programming simple HTML document.	Live demonstration using VS code and browser	
Week 4	Lecture 4	Exposure To HTML (Horizontal Rules and line breaks and paragraph, working with citation, quotation, definitions and comments)	T-1	RW-2 RW-20 SW-1	Horizontal Rules and line breaks and paragraph, working with citation, quotation, definitions and comments	To understand the implementation of basic elements used for programming simple HTML document.	Live demonstration using VS code and browser	
Week 5	Lecture 5	Exposure To HTML(Types of Tags in HTML)		RW-2 RW-19 RW-20 SW-1	Types of Tags in HTML	To understand the implementation of basic elements used for programming simple HTML document.	Live demonstration using VS code and browser	

Week 6	Lecture 6	Working with Text, Links, Images and Tables in HTML (Formatting text with HTML physical style elements, Formatting text with HTML logical style elements)	T-1	RW-18 RW-19 SW-1	Formatting text with HTML physical style elements, Formatting text with HTML logical style elements	Students will learn how to make hyperlink and how to link web pages using Anchor tag and will learn to apply Multimedia Tags within HTML Pages and to play audio and video on page loading.	Live demonstration using VS code and browser	
Week 7	Lecture 7	Working with Text, Links, Images and Tables in HTML (Arranging text, Exploring the Hyperlinks and linking to a mail system, Exploring the link relations, Working with images in a web page)	T-1 R-1	RW-1 RW-3 RW-5 RW-20 SW-1	Arranging text, Exploring the Hyperlinks and linking to a mail system, Exploring the link relations, Working with images in a web page	Students will be able to arrange text, explore the hyperlinks and linking to a mail system, explore link relations and explore working with images in a web page	Live demonstration using VS code and browser	
Week 8	Lecture 8	Working with Text, Links, Images and Tables in HTML (Displaying Plain, Bold, Italic, Small, Subscripted, Superscripted text, Displaying Program Code, Program Output, Keyboard text, Emphasizing text, Defining New Terms, Short and long Quotations)	T-1 R-1	RW-20 SW-1	Displaying Plain, Bold, Italic, Small, Subscripted, Superscripted text, Displaying Program Code, Program Output, Keyboard text, Emphasizing text, Defining New Terms, Short and long Quotations	Students will be able to work with text basics	Live demonstration using VS code and browser	
Week 9	Lecture 9	Working with Text, Links, Images and Tables in HTML (Creating Links with anchor tag)	T-1 R-1	RW-1 SW-1	Creating Links with anchor tag	Students will be able to create links with anchor tag	Live demonstration using VS code and browse	
Week 10	Lecture 10				Visual Implementation 1			
Week 11	Lecture 11	Introduction to Cascading Style Sheets(Introduction To CSS and types of CSS)	T-1		Introduction to CSS , types of CSS	Student will get introduce to the use of CSS, and learn about types of CSS	Live demonstration using VS code and browser	
Week 12	Lecture 12	Introduction to Cascading Style Sheets(Inline CSS)	T-1		Introduction To CSS, Inline CSS, internal CSS and external CSS	Understanding CSS, Inline CSS, internal CSS and external CSS	Live demonstration using VS code and browser	
		Introduction to Cascading Style Sheets(Internal CSS)	T-1		Introduction To CSS, Inline CSS, internal CSS and external CSS	Understanding CSS, Inline CSS, internal CSS and external CSS	Live demonstration using VS code and browser	

An instruction plan is only a tentative plan. The teacher may make some changes in his/her teaching plan. The students are advised to use syllabus for preparation of all examinations. The students are expected to keep themselves updated on the contemporary issues related to the course. Upto 20% of the questions in any examination/Academic tasks can be asked from such issues even if not explicitly mentioned in the instruction plan.

Week 12	Lecture 12	Introduction to Cascading Style Sheets(External CSS)	T-1		Introduction To CSS, Inline CSS, internal CSS and external CSS	Understanding CSS, Inline CSS, internal CSS and external CSS	Live demonstration using VS code and browser	
Week 13	Lecture 13	Introduction to Cascading Style Sheets(CSS rules like link and style)	T-1		CSS rules like link and style, types of CSS	Student will understand CSS rules like link and style	Live demonstration using VS code and browser	
Week 14	Lecture 14	Introduction to Cascading Style Sheets(CSS rules like link and style)	T-1		CSS rules like link and style, types of CSS	Student will understand CSS rules like link and style	Live demonstration using VS code and browser	
Week 15	Lecture 15	Introduction to Cascading Style Sheets(CSS properties like text controlling and text formatting)	T-1 R-1		CSS properties like text controlling and text formatting	Students will understand CSS properties like text controlling and text formatting	Live demonstration using VS code and browser	
Week 16	Lecture 16	Introduction to Cascading Style Sheets(CSS selectors like type)	T-1		Introduction to CSS selectors like type, id, class	Understanding CSS and use of selectors in CSS on Web Page.	Live demonstration using VS code and browser	
		Introduction to Cascading Style Sheets(id)	T-1		Introduction to CSS selectors like type, id, class	Understanding CSS and use of selectors in CSS on Web Page.	Live demonstration using VS code and browser	
		Introduction to Cascading Style Sheets(class)	T-1		Introduction to CSS selectors like type, id, class	Understanding CSS and use of selectors in CSS on Web Page.	Live demonstration using VS code and browser	
Week 17	Lecture 17	Introduction to Cascading Style Sheets(CSS Box Model- Padding)	T-1		SS Box Model□Padding, Margin, Border	Students will learn how to create divisions in HTML Pages, use of Background Images with HTML Pages and styling of webpage	Live demonstration using VS code and browser	
		Introduction to Cascading Style Sheets(Margin)	T-1		SS Box Model□Padding, Margin, Border	Students will learn how to create divisions in HTML Pages, use of Background Images with HTML Pages and styling of webpage	Live demonstration using VS code and browser	

Week 17	Lecture 17	Introduction to Cascading Style Sheets(Border)	T-1		SS Box Model□Padding, Margin, Border	Students will learn how to create divisions in HTML Pages, use of Background Images with HTML Pages and styling of webpage	Live demonstration using VS code and browser	
Week 18	Lecture 18	Introduction to Cascading Style Sheets(Div and Span Tag in CSS)	T-1		Div and Span Tag in CSS, Working with background Images	Students will learn how to create divisions in HTML Pages, use of Background Images with HTML Pages and styling of webpage.	Live demonstration using VS code and browser	
		Introduction to Cascading Style Sheets(Working with background Images)	T-1		Div and Span Tag in CSS, Working with background Images	Students will learn how to create divisions in HTML Pages, use of Background Images with HTML Pages and styling of webpage.	Live demonstration using VS code and browser	
Week 19	Lecture 19	Introduction to Cascading Style Sheets(Div and Span Tag in CSS)	T-1		Div and Span Tag in CSS, Working with background Images	Students will learn how to create divisions in HTML Pages, use of Background Images with HTML Pages and styling of webpage.	Live demonstration using VS code and browser	
		Introduction to Cascading Style Sheets(Working with background Images)	T-1		Div and Span Tag in CSS, Working with background Images	Students will learn how to create divisions in HTML Pages, use of Background Images with HTML Pages and styling of webpage.	Live demonstration using VS code and browser

Week 0	Lecture 0				Spill Over			
		MID-TERM						

An instruction plan is only a tentative plan. The teacher may make some changes in his/her teaching plan. The students are advised to use syllabus for preparation of all examinations. The students are expected to keep themselves updated on the contemporary issues related to the course. Upto 20% of the questions in any examination/Academic tasks can be asked from such issues even if not explicitly mentioned in the instruction plan.

Week 22	Lecture 22	Working with Tables (Working With Tables- Colspan and Rowspan)	T-1 R-1	RW-6 RW-7 SW-1	Working With Tables- Colspan and Rowspan, applying css on tables, creating hoverable tables	Students will learn to design tables with different layouts & styles and apply Colspan and Rowspan attributes. Allocation of Code based Test	Live demonstration using VS code and browser	
		Working with Tables (applying css on tables)	T-1 R-1	RW-6 RW-7 SW-1	Working With Tables- Colspan and Rowspan, applying css on tables, creating hoverable tables	Students will learn to design tables with different layouts & styles and apply Colspan and Rowspan attributes. Allocation of Code based Test	Live demonstration using VS code and browser	
		Working with Tables (creating hoverable tables)	T-1 R-1	RW-6 RW-7 SW-1	Working With Tables- Colspan and Rowspan, applying css on tables, creating hoverable tables	Students will learn to design tables with different layouts & styles and apply Colspan and Rowspan attributes. Allocation of Code based Test	Live demonstration using VS code and browser	
Week 23	Lecture 23	Working with Tables (applying css on tables)	T-1 R-1	RW-6 RW-7 SW-1	Working With Tables- Colspan and Rowspan, applying css on tables, creating hoverable tables	Students will learn to design tables with different layouts & styles and apply Colspan and Rowspan attributes. Allocation of Code based Test	Live demonstration using VS code and browser	
		Working with Tables (creating hoverable tables)	T-1 R-1	RW-6 RW-7 SW-1	Working With Tables- Colspan and Rowspan, applying css on tables, creating hoverable tables	Students will learn to design tables with different layouts & styles and apply Colspan and Rowspan attributes. Allocation of Code based Test	Live demonstration using VS code and browser	

Week 24	Lecture 24	Working with Forms (Working with Forms- action attribute, get and post methods)	T-1 R-1	RW-4 SW-1	Working with Formsaction attribute, get and post methods	Students will learn to use design HTML Forms and submit Forms using get and post methods and will learn to use various Form Elements like Text Box, Drop Down Box, Radio Button and check Box.	Live demonstration using VS code and browser	
Week 25	Lecture 25	Working with Forms(Form Elements and Controls Like Text Inputs, TextArea, Buttons, CheckBoxes, Dropdown Boxes, Radio Buttons, Select and File Select)	T-1 R-1	RW-4 SW-1	applying css on all controls of forms	Students will learn to use design HTML Forms and submit Forms using get and post methods and will learn to use various Form Elements like Text Box, Drop Down Box, Radio Button and check Box.	Live demonstration using VS code and browser	
Week 26	Lecture 26	Working with Forms (applying css on all controls of forms)	T-1 R-1		Form Elements and Controls Like Text Inputs, TextArea, Buttons, CheckBoxes, Dropdown Boxes, Radio Buttons, Select and File Select	Students will learn to use design HTML Forms and submit Forms using get and post methods and will learn to use various Form Elements like Text Box, Drop Down Box, Radio Button and check Box.	Live demonstration using VS code and browser	
Week 27	Lecture 27	CSS Grids and Webpage Layouts(Grid introduction)	T-1 R-1	RW-8	Grid introduction	To learn designing different layouts of webpage.	Live demonstration using VS code and browser	
Week 28	Lecture 28	CSS Grids and Webpage Layouts(Grid container)	T-1 R-1	RW-8 SW-1	Grid container	To learn designing different layouts of webpage.	Live demonstration using VS code and browser	
Week 29	Lecture 29	CSS Grids and Webpage Layouts(Grid Item)	T-1 R-1	RW-8	Grid Item and Creating different layouts for webpage	To learn designing different layouts of webpage.	Live demonstration using VS code and browser	
		CSS Grids and Webpage Layouts(Creating different layouts for webpage)	T-1 R-1	RW-8	Grid Item and Creating different layouts for webpage	To learn designing different layouts of webpage.	Live demonstration using VS code and browser	

Week 30	Lecture 30				Visual Implementation 2			
Week 31	Lecture 31	JavaScript Application Development(Incorporating JavaScript in the HEAD and BODY element, Using an External JavaScript file, Using variables and operators)	T-1 R-1	RW-9 SW-1	Incorporating JavaScript in the HEAD and BODY element, Using an External JavaScript file, Using variables and operators	Students will learn to implement control statements and will also learn the use of various dialog boxes in JavaScript.	Live demonstration using VS code and browser	
Week 32	Lecture 32	JavaScript Application Development(Using control statements such as if...else, switch, break and continue, Using looping statements such as while, do...while, for, Using Popup boxes such as Alert, Confirm, and Prompt)	T-1 R-1	RW-10 SW-1	Using control statements such as if...else, switch, break and continue, Using looping statements such as while, do...while, for, Using Popup boxes such as Alert, Confirm, and Prompt	Students will learn to implement control statements and will also learn the use of various dialog boxes in JavaScript.	Live demonstration using VS code and browser	
Week 33	Lecture 33	JavaScript Application Development(Working with JavaScript Objects,Properties and Methods)		RW-14 RW-15 RW-16 RW-17 SW-1	Working with JavaScript Objects,Properties and Methods	Students will learn to implement control statements and will also learn the use of various dialog boxes in JavaScript.	Live demonstration using VS code and browser	
Week 34	Lecture 34	JavaScript Functions,Events and Validation(Working with Functions-Using function arguments and return statement)	T-1 R-1	RW-15 SW-1	Working with JavaScript Objects,Properties and Methods	Students will learn how to make use of functions in JavaScript and apply on form .	Live demonstration using VS code and browser	
Week 35	Lecture 35	JavaScript Functions,Events and Validation(Working with JavaScript Events like Form Based, Keyboard Based and Mouse Based)	T-1 R-1	RW-11 SW-1	JavaScript Form Validation	Students will learn how to make use of functions in JavaScript and apply form validation.	Live demonstration using VS code and browser	
Week 36	Lecture 36	JavaScript Functions,Events and Validation(Javascript Form Validation)	T-1 R-1	RW-11	JavaScript Form Validation	Students will learn how to make use of functions in JavaScript and apply form validation.	Live demonstration using VS code and browser	
Week 37	Lecture 37				Project			

Week 38	Lecture 38	Javascript DOM(DOM introduction)	T-1 R-1	RW-12 RW-13 SW-1	DOM introduction and methods	To learn changing HTML elements and CSS properties using Javascript	Live demonstration using VS code and browser	
		Javascript DOM(DOM methods)	T-1 R-1	RW-12 RW-13 SW-1	DOM introduction and methods	To learn changing HTML elements and CSS properties using Javascript	Live demonstration using VS code and browser	
Week 39	Lecture 39	Javascript DOM(DOM document)	T-1 R-1	RW-12 RW-13 SW-1	DOM documents and elements	To learn changing HTML elements and CSS properties using Javascript	Live demonstration using VS code and browser	
		Javascript DOM(DOM elements)	T-1 R-1	RW-12 RW-13 SW-1	DOM documents and elements	To learn changing HTML elements and CSS properties using Javascript	Live demonstration using VS code and browser	
Week 40	Lecture 40	Javascript DOM(DOM HTML, DOM CSS)	T-1 R-1	RW-12 RW-13 SW-1	OM HTML, DOM CSS and DOM events	To learn changing HTML elements and CSS properties using Javascript	Live demonstration using VS code and browser	
		Javascript DOM(DOM Events)	T-1 R-1	RW-12 RW-13 SW-1	OM HTML, DOM CSS and DOM events	To learn changing HTML elements and CSS properties using Javascript	Live demonstration using VS code and browser	
		SPILL OVER						
Week 0	Lecture 0				Spill Over			

Scheme for CA:

CA Category of this Course Code is:A0203 (2 best out of 3)

Component	Iscompulsory	Weightage (%)	Mapped CO(s)
Project	Yes	50	CO1, CO2, CO3, CO4, CO5, CO6
Visual Implementation 1	NO	50	CO3, CO4
Visual Implementation 2	NO	50	CO1, CO2

An instruction plan is only a tentative plan. The teacher may make some changes in his/her teaching plan. The students are advised to use syllabus for preparation of all examinations. The students are expected to keep themselves updated on the contemporary issues related to the course. Upto 20% of the questions in any examination/Academic tasks can be asked from such issues even if not explicitly mentioned in the instruction plan.

Details of Academic Task(s)

Academic Task	Objective	Detail of Academic Task	Nature of Academic Task (group/individuals)	Academic Task Mode	Marks	Allotment / submission Week
Project	Development of a website using HTML, CSS and JavaScript	To check the development skills of the students	Individual	Offline	30	4 / 13
Visual Implementation 2	To check students' skills in HTML, the objective is to evaluate their understanding of HTML structure and syntax, familiarity with common HTML tags, proficiency in using links, knowledge of elements	The Visual Implementation Assessment will evaluate students' HTML skills by providing static images of assignments or output-based visual questions. Students must implement these visual designs using proper HTML structure, syntax, and common tags.	Individual	Offline	30	6 / 7
Visual Implementation 1	To check students' skills in CSS, the objective is to evaluate their understanding of CSS syntax and structure, familiarity with common CSS properties, proficiency in styling elements, and knowledge o	The Visual Implementation Assessment will evaluate students' CSS skills by providing static images of assignments or output-based visual questions. Students must implement these visual designs using proper CSS syntax, structure, common properties, and layout techniques.	Individual	Offline	30	12 / 13
